

Palaeoentomological Section
of the Polish Entomological Society
and
Department of Invertebrate Zoology and Parasitology
University of Gdańsk

warmly invites to

*Palaeoentomological Conference:
“Insects in fossil record”*

and

*34th Meeting of Palaeoentomological Section,
Polish Entomological Society*

which will be held during

**24th International Fair of Amber, Jewellery
and Gemstones – Amberif 2017
on Thursday, 23 March 2017, 11:00**

at Exhibition and Convention Centre of the MTG SA Gdańsk
International Fair Co. AmberExpo,

seminar room 2, 1st floor, Żaglowa 11, Gdańsk

Conference

“Insects in fossil record”

Programme

11:00 Conference Opening

11:15 Talks

Maciej Wojtoń, Wiesław Krzemiński, Iwona Kania, Katarzyna Kopec:
Anisopodidae Knab, 1912 (Diptera) in Baltic amber.

Wiktoria Jordan, Iwona Kania, Wiesław Krzemiński:
A new species of *Cyttaromyia* Scudder, 1877 (Diptera: Cyndrotomidae) from Green River Formation.

Wiesław Krzemiński, Katarzyna Kopec, Agnieszka Soszyńska-Maj, Iwona Kania, Ewa Krzemińska:
Limoniidae, Trichoceridae and Mycetobiidae (Diptera) from the Lebanese amber (Lower Cretaceous period) from the collection of Dieter Schlee (Stuttgart, Germany).

Kornelia Skibińska:
Evolution and phylogeny of the family Tanyderidae (Diptera).

Qingqing Zhang & Bo Wang:
Bizarre brachyceran flies in mid-Cretaceous Burmese amber.

Dagmara Żyła:
First extinct representative of the rove beetle subtribe Acylophorina from Baltic amber and its phylogenetic placement.

Karol Szawaryn:
Unusual and rare beetle inclusion in Baltic amber from Gdańsk collection.

12:30- 13:00 Break

Agnieszka Soszyńska-Maj, Wiesław Krzemiński, Katarzyna Kopec:
Phylogenetic relationships within relictous family Meropeidae (Insecta, Mecoptera) based on the new Cretaceous materials.

Alicja M. Brysz:
The extinct genus *Angustachilus* (Hemiptera: Achilidae) from the Eocene Baltic amber.

Błażej Bojarski & Violetta Zarzycka:
A definition of the planthopper family Cixiidae Spinola, 1839 (Hemiptera: Fulgoromorpha), and its fossil record.

Marta Konikiewicz, Joanna Mąkol:
Terrestrial Parasitengona mites (Arachnida: Actinotrichida, Prostigmata) in Baltic and Burmese ambers.

Marta Tischer:
Fossilisation potential of fungi in Baltic amber.

Christel Hoffeins:
Copal inclusions - misinterpreted as Baltic amber inclusions.

Agata Pielowska & Jacek Szwedo:
HeFo - Hemiptera Fossils Database: beginning and state of the art.

14:30: 15:00 Organizational issues of the Palaeoentomological Section of PES

15:00 Conference Closing
